PROFILE

Medieninformatik student skilled in front-end development and design, focused on creating user-friendly digital solutions.

TECHNICAL SKILLS

- **Front end** - TypeScript, React, Next.js, JavaScript, Tailwind CSS
- **Back end** - Node.js, TypeScript
- **Design & Prototyping** - Figma, Adobe Creative Suite (After Effects, Illustrator, Photoshop)

PROJECTS

- **Weather Forecast App**
Developed an app that provides weather forecasts using TypeScript, Next.js, and Tailwind CSS. Collaborated with team members on front-end design, integrating a weather API, and ensuring accurate and user-friendly forecast displays.
- **Design Thinking Project**
Solved a user-centric problem through comprehensive user research and iterative prototyping. Collaborated with team members to develop a prototype that addresses specific user needs and showcases potential solutions.
- **Design**
Created website designs, YouTube thumbnails, and social media graphics including Instagram posts, LinkedIn banners, and Facebook ads using Figma & Adobe Creative Suite.

EXPERIENCE

- **UI/UX Designer** - Snapbasket (12.2022 - 06.2023)
 - Developed target group-specific desktop and mobile website designs using Figma.
 - Worked closely with the development team for aesthetic and functional interfaces.
 - Conducted user research and implemented design improvements.
- **IT-Support** - AMJ Deutschland KdöR (02.2013 - 04.2015)
 - Conducted hardware and software installations and configurations to ensure smooth operations.
 - Supported office activities to optimize general business processes.

EDUCATION

- **Medieninformatik** - Hochschule RheinMain (B.Sc.) (Present)
Combining computer science with design, mathematics, and economics.
- **German Language Certificate (DSH-3/C1)** - FH-Aachen (2016)

LANGUAGES

- **English** - Fluent
- **German** – Fluent
